This material is for information only. Health information programs provide general health information and are not a substitute for diagnosis or treatment by a physician or other health care professional. Health benefits and health insurance plans contain exclusions and limitations. Estimated costs not available in all markets. The tool provides an estimate of what would be owed for a particular service based on the plan at that very point in time. Actual costs may differ from an estimate if, for example, claims for other services are processed after the estimate is provided but before the claim for this service is submitted. Or if the doctor or facility performs a different service at the time of the visit. Health maintenance organization (HMO) members can only look up estimated costs for doctor and outpatient facility services. Information is believed to be accurate as of the production date; however, it is subject to change. For more information about Aetna plans, refer to [aetna.com](http://aetna.com).
